with **SRP** | Learning Management Hub.com

With **SRP** Learning Management Hub.com you do not need to do anything to get started, just send us your logo and it is all set up for you.

We do accommodate those organisations who have already set up their LMS and want to keep all of their learning in one place. If that is your organisation, no problem we have SCORM, Tin Can API and other LMS integration options that will meet your Corporate HR's requirements.

There is also the option to purchase our courses outright on a CD, or for us to customise our course to reference your internal policy documents and procedures.

If you have ideas on how the Learning Management Hub can work better for you, give us a call, or email and we will get the ball rolling.

We are getting started with the Incident Prevention three course package, the other courses that are in pre-production (late 2013) are :

- Incident Investigations .. and introduction
- Root Cause Analysis for frontline staff
- Resilience and thriving through change
- How to write a job application and answer interview questions
- Leading your team through change
- Planning and implementing a change management program

call us today to book a [to book a free Learning Hub briefing](#)

IF YOU ALREADY HAVE A LMS... WE CAN DOWNLOAD

- We offer a no-fuss hosted service, but some people like it in their LMS
- We are flexible in delivering the training courses, the way you want them
- there are extra fees associated with most of the advanced options, as they are delivered through third parties who charge a fee based on volume

session

SCORM AND TIN CAN & LMS API OPTIONS

1.

- SCORM 1.2 AND 2004
- AICC, Blackboard 9.X
- TIN CAN API Supported

session

SCORM PACKAGE TECHNICAL DATA

2.

- SCORM to LMS via Scorm Cloud as a Dispatch Package
- automatically updated with new content (no need to reinstall)
- Optional perpetual license outright purchase of our training courses

session

UPLOAD YOUR OWN TRAINING AND INDUCTION

3.

- we can convert your existing Powerpoint courses and upload to your Hub
- Paper courses? No problem we write courses from your materials
- Other peoples courses? If it does not break any license agreement

session

CREATE TRAINING FOR YOU FROM SCRATCH—YES

4.

- mLearning as well as on-line courses created
- Video , HTML5 and Flash courses
- Full Instructional Design support service
